I loved this bag when I got it. perfect size. I wanted it for everyday use. In less than a month the painted cracked and wore off. I returned the bag.

Fantastic Bag!

Reviewer: Janice, Washington, DC      Date: May 21, 2012

This bag is simply beautiful, almost to beautiful to carry! The colors are very vivid, strikingly clear. Hopefully, this bag will hold up to light carrying. I love it! \*A little tip for leather bags, never hang them up by the straps,it will cause the straps to stretch and eventually cause small tears...always lay bags flat between a soft cloth, to keep colors from bleeding onto your bags, or from non-use, place them apart and store in cool dry area.

I fell in love with this bag the moment I saw it in the catalog and had to have it. It's everything I expected and more - quality leather - beautiful painting and I've gotten more compliments on this bag then any I've every had, including designer ones.
